

SAW BLADE 32 TPI HIGH ENDURANCE

Description

The saw blade 32 Z with high endurance is an original sparte part of BIAx, that is specially designed to saw thin sheets of metal and high strength steel up to 1.5 mm.

Benefits

- This saw blade 32 Z with high endurance sets high standards for tool life and economic viability
- It provides maximum cut performance and operating time
- It is extremely flexible and break resistant
- The sprockets are made of high-quality HSS steel, while the carrier material is made of spring steel
- The saw blade is point heat treated, for ultimate flexibility, toughness and lack of metal fatigue

Scope of delivery

- Packaging unit: 10 pieces
