

Description

The V-clip is especially developed for cracks at edges and corners. As those cracks are difficult to repair a special form is needed. Because of this special shape and accuracy of fit cracks at edges can be merged with the clip directly. With the help of V-clip, cracks can be repaired fast and easily, compared to other methods like gluing.

Benefits

- The used material doesn't create disturbances in electrical installations like the park distance control sensors.

Scope of delivery

- Packaging unit: 100 pieces

Technical data

Material	Stainless spring steel wire
Diameter ø	0,8 mm

Dimensions & Weight

L x W x H	2,2 cm x 1,4 cm x 0,08 cm
Weight	0,03 kg
