

Description

The W-clip is used for repairing cracks at e.g. bumpers or other plastic elements of a car. Due to its special shape, big cracks can be repaired easily at the back of the plastics – of course without damaged varnish! Furthermore demolished plastic straps can be repaired with the help of W-clip.

Benefits

- The used material doesn't create disturbances in electrical installations like the park distance control sensors.

Scope of delivery

- Packaging unit: 100 pieces
