

UNIVERSAL PUNCH- AND RIVETING SYSTEM PNP 90 XT² - BASIC EDITION

Description

From 2016 we will expand our product line by several interesting tools and accessories. This offers many additional processing options that has not been possible before. In addition to all common riveting processes in the thin sheet range it is possible to process high-strength or sandwich materials. Even the setting of blind rivet nuts as well as working with low work space will no longer be a problem with this equipment.

Benefits

- 2-Circuit-Hydraulik (Push & Pull)
- PNP 90 UN 2.0 is upgradable
- Easy handling by external pump-system
- Combination with existing riveting tools possible
- Infinite adjustment of the working pressure
